Product information
Brake Fluid Tronic

PI 6/09/28/2026

Description
Professional brake fluid service unit. Specifically designed for changing brake fluid and bleeding hydraulic brake systems. Featuring state-of-the-art control technology, electronic pressure control for constant flow pressure, a leak test, an integrated suction function, a digital pressure display, automatic pressure adjustment for consistent performance, and intuitive operation for single-person use.

Areas of application
Suitable for all hydraulic brake systems, including systems with ABS, ESP, and EDS. Allows brake fluid to be changed through the brake fluid reservoir. Suitable for all vehicle makes.

Comment
Container size: 5–20 L

Flow rate: 60 L/h

Dimensions: 850 × 400 × 330 mm

Weight: 23 kg

Application
For more information about the device and its operation, see our operating instructions.

Available pack sizes
1 pcs Carton	29523
	DE-EN
