Pro-Line Gasoline System Cleaner

Description

Removes deposits from injectors, intake valves, spark plugs, and the combustion chamber, and prevents new deposits from forming. Eliminates starting problems and rough engine running. Keeps all components of the gasoline injection system in good working order and protects the entire fuel system against corrosion. Improves throttle response and compression. Optimizes engine performance.

Properties

- increases operational reliability
- cleans the fuel system
- assures an optimum mixture
- simple to use
- removes deposits on injectors and in the combustion chamber
- outstanding corrosion protection

Technical data

Base	additive mixture in liquid carrier
Color / appearance	yellowish, light orange
Regulation on Flammable Liquids Class (Germany)	A III
Flash point	> 61 °C
Pour point	< -60 °C
Form	liquid
Odor	aromatic
Viscosity at 40 °C	<7 mm²/s
Density at 15 °C	0,808 g/ml

Areas of application

For all gasoline engines, gasolines and operating conditions. Suitable for all gasoline injection systems, both direct and manifold fuel injection systems and combined systems.

Application

To be added directly into the fuel tank. As a preventive measure, add during each inspection, after repairs on the fuel system and after each JetClean cleaning operation. The product mixes with fuel automatically. Contents of can are sufficient for max. 70 l of fuel.

Available pack sizes

500 ml Can sheet metal	2970 AR-DE-EL-FR-NL
500 ml Can sheet metal	2979 DA-EN-FI-NO-SV

Available pack sizes

500 ml Can sheet metal	5153 DE-EN-ES-IT-PT
500 ml Can sheet metal	20453 BG-DE-PL
500 ml Can sheet metal	21601 AUEN-EN
