Product information
Motorraumreiniger

PI 30/10/22/2026

Description
Special cleaner for engine and engine compartment. Its combination of active ingredients containing washing and cleaning additives removes oil- and grease-based residues just as easily as it does tar, brake dust and other contaminants.

Properties
- releases dirt, oil and grease residues
- does not attack plastics, rubber and paints
- fast acting
- removes preservatives
- high washing and cleaning efficiency

Technical data

Form	liquid, aerosol
Color / appearance	colourless
Base	surfactants and solvents
Propellant	propane, butane
Odor	characteristic

Areas of application
For cleaning engines and engine compartments.

Application
Spray the parts to be cleaned from a distance of approx. 20 – 30 cm and allow product to take effect for approx. 10 – 20 minutes, depending on the degree of contamination. Afterwards, thoroughly rinse off with a strong stream of water. To preserve the cleaned parts, use our Motor Conserve. Can also be used to remove our Wax Coating. **Note:** When using on refinished components or airbrushed surfaces, test for compatibility in an inconspicuous area first. When cleaning, the local regulations of the water management authority must be followed.

Available pack sizes

400 ml Can aerosol	3326 DE-EN-ES
